of Trees and Hardy Plants-

Thomas Meehan and Sons Pioneer Nurserymen of America Germantown Philadelphia

POSTER DESIGN MODELED FROM ACTUAL SCENE IN WINDSOR PARK—HEIGHT OF TREE BIFEET IN 1904

A Supplement to this Handbook

A^S leaders in plant catalogue-making, we admit that the "complete" catalogue is a failure.

Most nurseries strive to produce something a little more elaborate in printing, description, and illustration, but you, when you work into the details of such catalogues, do you find your questions answered, and your problems solved? Not at all. Your needs are too individual, your tastes too personal, and your local gardening conditions too variable to make any catalogue cover your requirements and those of everybody else.

This handbook of ours aims to give you a complete list of hardy, desirable plants, with a few necessary facts, after which we expect to discuss with you

your individual problems.

Tell us your problems; question us freely. You cannot tire us. Sixty years accumulated experience are at your command. Every man on the Meehan staff, in office and nursery, has made plants his life work solely, and our recommendations to you come with authority.

Professional questions on Landscape Gardening are dealt with in a separate department at the head of which is Mr.

J. Franklin Meehan.

If you have a new and unplanted property, give us a brief description and size, and ask about our New Property Proposition.

Write now, and ask us what you

want to know.

FEB 6 1915

THIS IS A MOST UNUSUAL BOOK

وللنتشف الما

LWAYS striving to build up our catalogue from the buyers' point of view, we incorporate unusual things for vour convenience.

The first catalogue to list actual sizes and price them individually was Meehans'. That this was a sensible and sane thing to do is evidenced by the fact that almost every nurseryman followed. Another important move in recent years was to name wholesale prices for buyers in quantity, but not till now did we find what we believe will prove the most convenient form. This is a practical book, handy and always useful.

The statement of diameter of trunk in a tree means more to the purchaser than height in trees that have reached a certain stage. We avoid cataloguing height wherever pos-Under competition of prices carry this fact, and learn that as diameter is one of the determining factors in valuation, our stock is invariably reasonably priced.

All prices are f.o.b. Germantown. large containers, when required, are charged for but may be returned for credit. Express rates are now very low. Parcel Post can frequently be used to advantage. Prices are net, without favor. Exceptions are made of long lists, on which estimates will be furnished on application.

If you do not know our establishment well, ask for booklet "A Visit to the Meehan Nurseries," mailed free. Another booklet for distribution free to our patrons is "Garden Work''—how to plant and care for hardy plants.

About April first we shall issue a summer catalogue of potted hardy plants for late spring planting, tubbed boxwood, vines, dahlias, roses, evergreens, etc.

Ask for summer catalogue. Always question us freely.

What Kind of a Tree Should I Plant?

The desire for trees for special purposes and effects suggests a grouping of kinds for specific purposes for the information of our many customers and friends.

Though these groups do not aim to answer all questions which may arise they will no doubt be found helpful and suggestive.

Where you still are in doubt, do not hesitate, but sit down and write our "Special Information Department." It will give you specific help.

SHADE AND AVENUE TREES

Acer platanoides. Norway Maple.
Acer saccharinum. Sugar Maple.
Cedrela sinensis.
Fraxinus excelsior. English Ash.
Gleditschia triacanthos. Honey Locust.
Liquidambar styraciflua. Sweet Gum.
Platanus orientalis. Oriental Plane.
Quercus coccinea. Scarlet Oak.
Quercus palustris. Pin Oak.
Quercus rubra. Red Oak.
Salisburia adiantifolia. Maidenhair.
Tilia Americana. American Linden.
Ulmus Americana. American Elm.

CITY TREES

Platanus orientalis. Oriental Plane. Quercus coccinea. Scarlet Oak. Quercus palustris. Pin Oak. Quercus rubra. Red Oak. Salisburia adiantifolia. Maidenhair. Ulmus Americana. American Elm.

TREES FOR WET SOIL

Acer dasycarpum. Silver Maple.
Acer rubrum. Red Maple.
Betula rubra. Bed Birch.
Liquidambar styraciflua. Sweet Gum.
Quercus bicolor. Swamp White Oak.
Quercus palustris. Pin Oak.
Salix (most species).

TREES FOR SEASIDE PLANTING

Fraxinus viridis. Green Ash. Gleditschia triacanthos. Honey Locust. Gymnocladus Canadensis. Kentucky Coffee. Liquidambar styraciflua. Sweet Gum. Platanus orientalis. Oriental Plane. Sassafras officinale. Sassafras.

WEEPING TREES

Acer dasycarpum Wierii. Wier's Maple.
Betula alba laciniata pendula. Weeping Birch
Cerasus rosea pendula. Weeping Cherry.
Morus Teas' Weeping. Weeping Mulberry.
Salix Babylonica. Weeping Willow.

6. Oldake

Germantown, Philadelphia, Pa.

3

TREES FOR DRY SITUATIONS AND DRY CLIMATES

Acer Tataricum Ginnale.
Aralia spinosa. Hercules Club.
Betula papyracea. Paper Birch.
Gleditschia triacanthos. Honey Locust.
Gymnocladus Canadensis. Kentucky Coffee.
Koelreuteria paniculata. Varnish Tree.
Phellodendron Japonicum.
Quercus coccinea. Scarlet Oak.
Quercus rubra. Red Oak.

TREES VALUED FOR FOLIAGE EFFECTS, WITH COLORED FOLIAGE

Acer Japonicum aureum (lvs. golden).
Acer polymorphum atropurpureum (lvs. purple).
Acer polymorphum dissectum atropurpureum (lvs. dissected and red).
Acer polymorphum reticulatum (lvs. variegated, yellow and green).
Acer platanoides Schwedleri (lvs. red in spring).
Fagus sylvatica Riversii (lvs. purple).
Tilia Europaea argentea (lvs. white beneath).

TREES WITH BRILLIANT AUTUMNAL TINTS

Acer rubrum (scarlet).
Acer saccharinum (scarlet and orange).
Cornus florida (scarlet).
Cercidiphyllum (yellow and purple).
Fraxinus Americana (yellow or violet-purple).
Liquidambar (scarlet and dark red tints).
Oxydendrum arboreum (scarlet).
Quercus coccinea (scarlet).
Rhus (mostly scarlet).
Sassafras (orange and scarlet).

DWARF, EDGING SHRUBS

Abelia grandiflora.
Azalea mollis.
Berberis Thunbergii.
Caryopteris mastacanthus.
Clethra alnifolia.
Daphne Mezereum.
Desmodium penduliflorum.
Deutzia gracilis.
Hypericum in variety.
Stephanandra flexuosa.
Symphoricarpos in variety.
Spiraea Bumalda, A. Waterer.
Spiraea Thunbergii.

SHRUBS THAT DO WELL IN SHADED PLACES

Amelanchier.
Azalea in variety.
Ceanothus Americanus.
Cephalanthus occidentalis.
Chionanthus Virginica.
Clethra alnifolia.
Cornus in variety.
Hamamelis Virginiana.
Itea Virginica.
Ligustrum vulgare.
Lindera Benzoin.
Ribes in variety.

SHRUBS WITH COLORED OR VARIEGATED FOLIAGE

Berberis vulgaris purpurea (Barberry). Hibiscus Syriacus Meehani. Hydrangea radiata. Ligustrum ovalifolium aureum. Prunus Pissardi (Purple Plum). Sambucus Canadensis aureus. Weigela amabilis variegata.

SHRUBS VALUED FOR THEIR ORNA-MENTAL FRUIT

Berberis in variety (Barberry). Callicarpa purpurea. Chionanthus Virginica (White Fringe). Cornus (Dogwood), many sorts. Crataegus (Hawthorn), of many kinds. Elæagnus (Silver Thorn), in variety. Euonymus (Strawberry Bush), of sorts. Ilex verticillata (female). Lindera Benzoin. Lonicera (Bush Honeysuckle), in variety. Pyrus arbutifolia. Rhamnus cathartica. Rhus (Sumach), several sorts. Ribes (Flowering Currant), in variety. Rosa (Roses), in variety. Sambucus (Elder), in several Symphoricarpos (Snowberry), in several sorts. in variety. Viburnum, in quite a few kinds.

THE NEW MEEHAN-PLAN FOR LAWN and GARDEN PLANTING

POR properties one acre and under, or for any small questions of general planting ask for a "New Property Data Form," on which you return to us information and rough diagram of your place. Without obligations to you we have the Landscape Department make a preliminary study and outline suggesting a general planting scheme—the picture to be worked out. On your approval and return of preliminary, we draw up a list of stock in detail and submit it with estimate. For properties over one acre or with intricate problems, deal directly and professionally with the Landscape Department, at Mt. Airy, Pa.

THOMAS MEEHAN & SONS

Germantown, Philadelphia, Pa.

New and Rare Plants

The following are recommended not alone because they are uncommon, but also for their unusual merit. We confidently offer them as ones that are sure to please and interest you—not mere novelties.

NEW ROSE

Edgar Andreu. New climbing rose. Better qualities than Crimson Rambler. Flowers twice as large, dark red. Foliage neat and without mildew.

12 year Pot-grown, 50 cents each.

FOR SHADED BORDERS

Senecio clivorum. One of the famous Wilson discoveries in China. Luxuriant growth. Panicles of pretty golden yellow flowers. Hardy herbaceous perennial.

25 cents each; \$2.00 per 10; \$15.00 per 100.

FOR DRY SUNNY PLACES

Phlox argillacea. Flowers mid-season, silvery-lavender, distinctive, narrow leaves. First offered in 1914.

35 cents each; \$2.50 per 10; 25 for \$3.75.

A FAMOUS FLOWER IN WHITE

White Rocky Mountain Columbine. 15 cents each; \$1.20 per 10; 25 for \$2.50.

FOLIAGE PLANT FOR POOR SOILS

Horned-Poppy. Glaucium Fischeri. Unique, attractive rosettes of gray foliage. Yellow poppy-like flowers; horn-like seed pods. Good. 15 cents each; \$1.20 per 10; 25 for \$2.50.

AN AUTUMN GLORY

Aster Lil Fardel. New Rose Starwort. A lovely shade.

15 cents each; \$1.20 per 10; 25 for \$2.50.

ROCKS AND BANKS

Dwarf Euonymus (nanus). Neat leaves and trailing growth. Very rare.

2 to 2½ ft., 50 cents each.

1 to 1½ ft., \$2.00 per 10.

IMPROVED RED SPIRAEA

Spiraea Margaritaea. Intense red flowers. Improvement on Anthony Waterer.
 1 to 1½ ft., 25 cents each.

BLACK MAGNOLIA

Magnolia Soulangiana nigra. A deciduous Chinese variety with dark maroon flowers. Not evergreen.

3 to 3½ ft., \$2.50 each; larger, \$3.50 and \$4.00.

UNIQUE ORNAMENTAL SHRUB

Cork-winged Spindle Bush. Euonymus alatus. Curious cork-winged stems. Gorgeous autumn foliage. Brilliant small red berries. Grows large and spreading. Improves with age. 3 to 4 ft., \$1.25 each; 5 for \$5.00.

Rare Wistaria. Tree (Pterostyrax).

NEW ORNAMENTAL PRIVET

Ligustrum Ibota compacta. Free, airy growth, but rather compact and shapely. Distinct. 2 to 3 ft., 35 cents each; \$3.00 per 10.

RARE FLOWERING TREE

Pterostyrax hispidum. Wistaria Tree. Pure white flowers in early summer. Wistaria-like clusters. 4 to 5 ft., \$1.25 each; 5 to 6 feet, \$2.00 each.

PAGODA TREE

Sophora Japonica. Another choice tree, flowering profusely in late summer. A large spreading tree; bright green foliage.
5 to 6 ft., \$1.75 each.

OAK-LEAVED HYDRANGEA

Hydrangea quercifolia. Large oak-like leaves. Open flower clusters. Low, bushy habit. 1 to 1½ ft., 25 cents each.

ROSE-ACACIA

Robinia hispida rosea. A lovely flower in clusters. A free growing shrub.
3 to 4 ft., 50 cents each.

COTONEASTER SIMONSI

A shrub with character in foliage and growth. Leaves glittering green. Red berries in profusion. About 4 feet high. 3 to 4 ft., 50 cents each; 4 to 5 ft., 75 cents.

TREE FORM WISTARIA

Sturdy plants. Clear straight stems 3 or 4 feet high, surmounted by four year old crown. Flowering size.

5 to 6 ft., \$5.00 each.

RED-LEAVED ROSE

Rosa rubrifolia. Easily grown. Good to color a general planting. Flowers single and small. 2 to 3 ft., 35 cents each; 5 for \$1.20.

DWARF SNOWBALL

Viburnum opulus nanus. A solid mass of foliage, one or two feet in diameter. No flowers. 6 to 12 inches, 35 and 50 cents each.

GERMANDER

Teucrium Canadense. A little flowering evergreen plant. Herb-like. Very small leaves. Fills in planting niches.

15 cents each; \$1.20 per 10; \$10.00 per 100.

HARDY BAMBOO

Bambusa Metake. Broad evergreen leaves. Establish in liberal clumps. Very effective. Grows 5 to 7 feet high. 25 cents each; clumps, \$1.00 each.

A FLOWERING TREE

Koelreuteria paniculata. Large clusters of yellow flowers. Rugged growth. 6 to 8 feet, \$2.00 each.

PRINCESS ENA POPPIES

Apricot-pink Oriental Poppy. A new and distinct color in hardy poppies. Fine roots. 25 cents each; \$2.00 per 10; 25 for \$3.75.

HYDRANGEA HILLS OF SNOW

Next to Mallow Marvels in popularity. Blooms freely, round heads of white flowers. Stands rather poor soil.

1½ to 2 ft., 35 cents each; \$3.00 per 10.

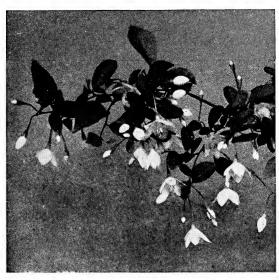

3 to 4 ft., 50 cents each; \$4.00 per 10.

STORAX

The loveliest hardy, tall growing, flowering shrub. Flowers pure white. Unusually good foliage. 4 to 5 ft., \$1.00 each; 6 to 7 ft., \$1.50 each.

WHITE CLIMBING ROSE

Alberic Barbier. Beautiful double white flowers. Rapid growth. Rich green, leathery foliage. Good. Pot grown plants, 50 cents each.

Most beautiful of shrubs-Storax.

New Series of Meehans' Collections

SHADE TREES FOR STREET

Specially grown for street planting, straight stems and high branches. Well developed root system produced by frequent transplanting.

- 2 Norway Maples, 10 to 12 feet high, 2 to 21/4 inches diameter, for \$6.00.
- 2 Oriental Planes, 10 to 12 feet high, 2 to 21/4 inches diameter, for \$6.00.
- 2 Red Oaks, 10 to 12 feet high, 1½ to 1¾ inches diameter, for \$6.00.
- 2 American Linden, 10 to 12 feet high, 2\% to 3 inches diameter, for \$6.00.

CALIFORNIA PRIVET HEDGE

For every 100 feet of hedge use 150 plants set in a single row.

If you use our 3 to 4 foot grade and cut it well back at the time of planting you will have a fine hedge the first year.

150 plants packed ready for shipment for \$12.00.

JAPANESE BARBERRY HEDGE

The hedge with all the good features and no poor ones. It does not grow very high, 3 feet being about the maximum.

For 100 feet use 100 plants, prune severely at the time of planting.

100 plants of our 18 to 24 inch grade, packed ready for shipment, for \$16.50.

FORMAL PLANTS FOR ENTRANCE

Well matched pairs; just the right size and age for transplanting.

1 pair Teas' Weeping Mulberry, 4 year heads.
Branches reaching the ground, for \$5.00.
1 pair Catalpa Bungei. The round headed Catalpa.
1 year heads, for \$4.00.

1 pair Globe Headed Mulberry, 2 year heads, for \$4.00. A new formal tree of great promise.
1 pair Standard Wistarias. Fine, well developed specimens that flower every year, for \$10.00.
1 pair Globe Norway Maples for \$10.00. These unusual plants develop into perfect globes.

COLLECTION NO. 5

Evergreen Porch Bed, \$22.00, packed ready for shipment.

Sufficient for a bed about 16 feet long by 3 feet wide.

- 1 Sawara Cypress, 2½ to 3 feet. 1 Golden Sawara Cypress, 2½ to 3 feet. 2 Thread Leaved Cypress, 2 to 2½ feet. 2 Japanese Plume Cedars, 2½ to 3 feet.
- 2 Japanese Globe Cedars, 1 to 1½ feet.
 2 Pyramidal Arbor vitae, 3 to 3½ feet. 2 Blue Chinese Junipers, 1½ to 2 feet.

COLLECTION NO. 10

12 Assorted Shrubs suitable for planting in front of a high porch or house foundation.
Packed ready for shipment, \$7.50.
2 Cotoneaster Simonsi, 4 to 5 ft.

Viburnum tomentosum, 3 to 4 ft.
Ligustrum Ibota compacta, 3 to 4 ft.
Ligustrum Regelianum, 3 to 4 ft.
Igapanese Blood-leaf Maple, 3 to 3½ ft.
Tamarix Japonica plumosa, 3 to 4 ft.

1 Calycanthus laevigatus, 3 to 4 ft.

COLLECTION NO. 15

18 Choice Evergreen Shrubs for planting in front of a low porch or house foundation.
Packed ready for shipment for \$15.50.
2 Holly-leaved Mahonia, 18 to 24 inches.
2 Japanese Holly, 12 to 18 inches.
3 Japanese Privet, 12 to 18 inches.
3 Japanese Privet, 12 to 18 inches.

2 Retinispora obtusa compacta, 12 to 18 inches.

2 Retinispora filifera, 18 to 24 inches.

4 Azalea amoena, 9 to 12 inches.

COLLECTION NO. 20

18 Pretty Flowering Shrubs suitable for planting in front of a sunny porch or foundation.
Packed ready for shipment, \$6.00.
2 Spiraea Van Houttei, 2 to 3 ft.
3 Berberis Thunbergii, 1½ to 2 ft.

2 Kerria Japonica, 1 to 1½ ft. 2 Rosa rugosa, 1½ to 2 ft.

3 Spiraea Thunbergii, 11/2 to 2 ft.

2 Philadelphus Lemoinei erectus, 2 to 3 ft.

4 Hydrangea paniculata grandiflora, 2 to 3 ft.

COLLECTION NO. 25

5 Vines for Shady Porch, \$2.50.

Strong 2 and 3 year old plants from pots. Packed ready for shipment.

1 Ever-blooming Honeysuckle.

Akebia quinata.

1 Clematis Virginiana.
1 Virginia Creeper.
1 English Ivy, Harvey's variety.

COLLECTION NO. 30

5 Vines for Sunny Porch, \$2.50.

Strong 2 and 3 year old plants from pots. Packed ready for shipment.

2 Clematis paniculata.

1 Rose Edgar Andreu. A lovely new crimson climbing rose with crisp bright foliage.

1 Rose Alberic Barbier. White flowers, splendid

foliage.

1 Large Flowering Purple Clematis.

VINES FOR COVERING WALLS

There is only one vine that can be depended upon to cling to almost any wall and grow fast, and that is the Ampelopsis Veitchii or Boston Ivy.

5 strong 3 year old plants from pots for \$2.00.

COLLECTION NO. 35

Shade Trees for planting on the lawn or near the house.

3 Beautiful Trees, packed ready for shipment, for \$5.00.

Will give shade without preventing free circulation of air; will not kill the grass under them; are free from disease and insect pests. Beautiful, varied and uncommon foliage.

1 Maidenhair Tree, 8 to 10 feet. 1 Kentucky Coffee, 8 to 10 feet.

1 Sweet Gum, 9 to 10 feet.

GROUP NO. 40

Quick Shade for Lawn.

3 Splendid large trees packed ready for shipment for \$10.00.

A new house and bare lot need shade and want it quick. These trees are fast growing and a good size to begin with, and what is more they are unusual and choice.

1 Chinese Cedrela, 12 to 14 feet.

1 American Linden or Basswood, 12 to 14 feet. 1 Purple Norway, 12 to 14 feet, low branched.

Flowers of Cedrela Tree.

FORMAL PLANTS FOR STEPS, TERRACES AND PATHS

1 pair Globe Shaped Box, 18 by 18 inches, perfect sheared specimens for \$10.00.
1 pair Standard Box, 18 inch crowns, for \$7.00.
1 pair Standard Box, 24 inch crowns, for \$10.00.
1 pair Standard Box, 24 inch crowns, for \$10.00.

1 pair Pyramidal Box, 2½ to 3 feet high, for \$6.00.
1 pair Standard Hydrangea for \$2.00.

1 pair Pyramidal Arbor vitae, 4 to 41/2 feet high, for \$4.00.

1 pair Retinispora obtusa compacta, 11/2 to 2 feet high, for \$3.00.

COLLECTION NO. 45

Specimen Evergreen Group for Lawn.
Packed ready for shipment, \$16.00. Lovely tints
of dark green, pea green and blue.
Should be planted at least 7 feet.

Should be planted at least 5 feet apart on a small lawn. A greater distance is better if space permits.

1 Tiger Tail Spruce, 3 to 3½ ft.

1 Colorado Blue Spruce, 3 to 3½ feet.

1 Veitchii Fir, 3 to 3½ feet.

COLLECTION NO. 50 Japanese Maple Group

Worth \$16.00. Packed ready for shipment, \$8.00

Each plant carefully dug with ball and burlapped. Six bushy well developed plants that will make a good showing at once. They are all different and are the most dependable varieties. Lovely tints of color and variation of form.

1 Ivy-leaf Maple, 4 to 5 ft.

1 Blood-leaf Maple, 3 to 3½ ft.
1 Green Fern-leaf Maple, 2½ to 3 ft.
1 Red Fern-leaf Maple, 2½ to 3 ft.
1 Palmate-leaf Maple, 3 to 3½ ft.

SHRUB COLLECTION NO. 55

12 Shrubs for \$6.00—Choice and Unusual. For localities south of Philadelphia.

1 White Fringe, 3 to 4 ft.

1 Clerodendron trichotomum, 4 to 5 ft.

1 Elsholtzia Stauntoni, 2 yr.

1 Blue Althaea, 2 to 3 ft. 1 White Althaea, 3 to 4 ft.

1 Variegated Althaea, 4 to 5 ft.
1 Hydrangea Hills of Snow, 2 to 3 ft.

1 Hydrangea Japonica Hortensia, 18 to 24 in.

1 Purple Shrub Magnolia, 3 to 3½ ft.

1 Storax, 4 to 5 ft. 1 Chaste Shrub, 4 to 5 ft.

1 Callicarpa Japonica, 3 to 4 ft.

COLLECTION NO. 60

Group of vigorous growing trees and shrubs to screen objectionable view. Will give immediate results. Packed ready for shipment, \$7.50. 4 Lombardy Poplars, 8 to 10 ft. 1 California Privet, 5 to 6 ft.

1 Silver Thorn, 5 to 6 ft.

Japanese Snowball, 5 to 6 ft.
 Flame Colored Willow, 5 to 6 ft.
 Sweet Syringa (Philadelphus), 5 to 6 ft.

1 White Fringe, 4 to 5 ft.

COLLECTION NO. 65

Group for screening back entrance.
10 vigorous growing bushy plants, 3 to 4 feet high, packed ready for shipment, for \$5.00. Purple Lilac. White Lilac. Mock Orange or Syringa. Pink Bush Honeysuckle.

Ibota Privet.

Double White Rose of Sharon. Golden Bell.

Sweet Shrub. Snowball.

Pink Weigela.

HARDY GARDEN NO. 70-\$5.00

Will plant a bed or border about 100 to 125 square feet.

1 Achillea "The Pearl" White.

2 Stokes Aster. Stokesia.

2 Armeria maritima. Thrift.

3 Aster Novae-Angliae. Lil Fardel. 2 Bocconia cordata. Plume Poppy. Lilium tigrinum splendens.

2 Coreopsis grandiflora. 3 Delphinium hybridum. Larkspur.

3 Dianthus, Her Majesty. White Pink. Pink. 3 Dianthus, Lord Lyons.

3 Iris Germanica, white flag. 2 Iris Germanica, purple flag.2 Aster ptarmicoides, white.

- Iris Sibirica orientale. Physostegia Virginica.
- Obedient Plant. 1 Helianthus doronicoides.

1 Hemerocallis fulva fl. pl.

Day Lily. 1 Mallow Marvel.

3 Iberis sempervirens superbum. 1 Inula Brittanica. Elecampane.

2 Lychnis chalcedonica. 1 Lythrum salicaria rosea superba.

Veronica candida.

- 2 Phlox Richard Wallace. 2 Phlox Pacha. Pink. 2 Funkia lancifolia.

HARDY GARDEN NO. 75-\$10.00

Will plant a bed or border about 250 to 275 square feet.

2 Achillea, "The Pearl."

3 Digitalis gloxinaeflora alba.

3 Anemone Japonica.

3 Armeria maritima. Thrift. 2 Aster Novae Angliae, Lil Fardel.

Aster Nova-Bocconia cordata.

**Grinum. Tiger Lily. 3 Lilium tigrinum.

6 Coreopsis grandiflora.

3 Delphinium hybridum. Larkspur. 3 Dianthus, Her Majesty. White Pink.3 Dianthus, Lord Lyons. Pink.

4 Iris Germanica, white flag. 4 Iris Germanica, purple flag.

Iris Sibirica orientale.

5 Liatris pycnostachya. 2 Helianthus doronicoides

2 Hemerocallis fulva fl. pl. 2 Mallow Marvel.

6 Iberis sempervirens.2 Inula Brittanica.

3 Lychnis chalcedonica.

Lythrum roseum superbum.

1 Papaver orientale. Oriental Poppy.

2 Aster ptarmicoides.2 Phlox Tower of Eiffel.

2 Phlox Champs Elyssees.

2 Phlox Epopee. 2 Phlox Pacha.

2 Phlox Richard Wallace.

3 Betonica rosea.

(Continued on page 13)

HARDY GARDEN NO. 75

(Continued from page 12)

- 4 Sisyrinchium Bermudianum.
- 3 Spiraea palmata elegans.
- 2 Spiraea ulmaria alba plena.
- 2 Stachys lanata. Bunny's Ears.
- Veronica candida.
- 2 Eulalia gracillima. Hardy Grass.

COLLECTION NO. 80

Selection of Fruit Trees for the Small Yard, \$5.00 Fine stocky trees as large as it is advisable to plant.

- 1 Early Peach. 1 Late Peach.
- 1 Pie Cherry.
- 1 Oxheart Cherry.
- 1 Dwarf Seckel Pear.
- 1 Standard Bartlett Pear.
- 1 Abundance Plum.
- Quince.
- 1 Baldwin Apple.

COLLECTION NO. 85

Small Fruits for a Small Family.

- Packed ready for shipment, \$3.00. 10 Everbearing St. Regis Raspberry.
- 5 Cherry Currants.
- 5 Red Jacket Gooseberries.
- 5 Roots Victoria Rhubarb.

COLLECTION NO. 90

Selection of Grapes for the Small Family. Packed ready for shipment, \$1.00.

Plant from 6 to 8 feet apart for training on arbors Caco Grape. A grand new grape combining the good qualities of Catawba and Concord.

Worden. Large Black Grape.
Moore's Farly. Fine early black grape.
Niagara. The well-known white.

Niagara. The well-kii ... Salem. Red, juicy and sweet.

HOW TO COMPLETELY PLANT AN ACRE

HE foregoing collections have been carefully chosen that by combining them one may completely plant his grounds of one acre or less.

Commencing with "Shade Trees for Street" the offers pass to the hedge, entrance specimens, porch beds or house foundations, vines, lawn specimens and groups, screens, flowers, and fruit garden.

According to the room you have take all or omit some.

Examine carefully the splendid suggestions embodied in "New and Rare Plants," adding some to adding some to the general planting to give special interest.

Deciduous Trees

THE BEST TREES THAT MONEY CAN BUY

Not only started right, but reared right, sold right and shipped right.

The soil is regularly fertilized with the best plant food ever produced—barnyard manure.

Trees are set wide apart that they may have room for individual development, root and branch, get abundant air-circulation, and be open to strengthgiving light.

The selection of plants for an order is a special care. Everything chosen and dug fresh to your order.

The digging is in charge of small groups of experienced men—no large gangs of laborers rushed through by brute superintendence, but each little group with at least one man who has been under training for at least ten years.

One of the most critical points, the packing house, is under the constant supervision of the vigilant foreman, Mr. Brown, and one may count on shipments going out in A-1 condition. Buyers of plants are sometimes induced to try other nurseries, but usually return to Meehans' wiser.

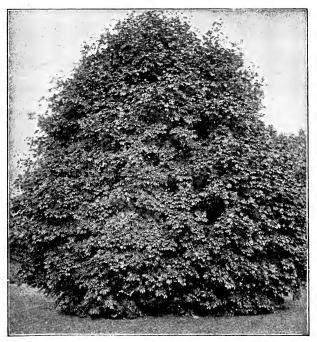

"Diam." means diameter of trunk of tree at base. 25 trees of any one kind are sold at the 100-rate named for that plant.

ACER—THE MAPLE

Street, Avenue, Lawn and Shade.

Popular everywhere as street and avenue trees. The Norway and Sugar for street, Schwedler's and Silver for avenues, and all as lawn specimens. The lovely Japanese kinds are not tree-like; we call them "Tree-Shrubs," as they grow bushy and usually without single leaders. The Cork Maple has small leaves, rugged growth, and medium size—distinct.

Acer campestre. Cork Maple.		
Each	Per 10	Per 100
6 to 8 ft\$1.50		
5 to 6 ft	\$ 8.00	\$ 65.00

HISTORICAL ELMS

Not seedlings, but scions actually cut from the historical trees and grafted on ordinary roots. We have nice saleable trees 6 to 10 ft. of elms in such famous places as follows.

The quantity of each is limited. Make your selection and order at once. Name an alternative selection in event your first choice is already sold. This is the only lot of similar plants known to exist in this country. Price, \$5.00 each.

Ayr (Home of Burns)
Balmoral Castle
Battlefield (Stirling Bridge)
Bedford (Birthplace of John Bunyan)
Blantyre (Home of David Livingston)
Cambridge (Kings College-University Grounds)
Cambridge (St. John's College)
Chester (Old Rowan Water Gate)

Oxford (Addison's Walk)
Ruby School
Sanchicburn (Stirling)
Sandringham
Southey's Grave (Dwarf Weeping
Form)
Stirling Castle
Stratford
Tower of London
Twickenham (Home of Pope)
Waverley Abbey (Haslemere)
Westminster (Palace of Gardens)
Windsor Castle (Long Walk)

NEW AND RARE TREES

Give your grounds character, and make them interesting to your friends by planting choice trees that are not commonly seen.

Refer to pages 4-7.

Deciduous Flowering Shrubs

We cannot make cold type tell you all we should like to about these distinctly "Meehan products." They are different from ordinary shrubs—have had a different life—more room, more care, more cultivation. They are past the nursing stage. 25 shrubs of any one kind are sold at the 100-rate named for that plant.

named for that plant.

Coniferous Evergreens

These are the cone-bearing Evergreens, as spruce, fir, pine and cedar, as distinct from such broad-leaved shrubbery and flowering evergreens, as box-

wood and Rhododendron.

As evergreens are usually desired for special purposes, let us aid you in your selection. Tell us about the position—general location, or size of bed. We believe in frequent transplanting, development, even at additional cost.

even at additional cost.

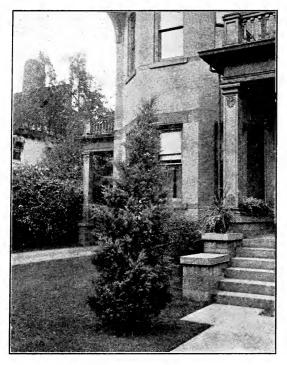

Every evergreen plant is dug with care and the ball of earth about the roots done up in burlap.

The prices named are per single plant unless specified.

Broad-leaved Evergreen Shrubs

In winter, when the landscape is almost shorn of its beauty, the bright glossy foliage of evergreen shrubs makes a brave display. A deep, cool, moist sub-soil with proper drainage is the ideal soil, and a shaded position is often preferable, as bright sunlight during the winter months is likely

to injure the foliage of some of	them.	, ,,,,,,,

POINTS ON THE CULTIVATION OF RHODODENDRONS

Rhododendrons may be grown in any soil that does not contain lime in appreciable quantities.

Dig out the beds 2 feet deep and mix with the natural soil leaf mold from the woods, well rotted stable or cow manure, and if the soil is heavy a liberal quantity of coarse sand.

Set the plants a trifle deeper than the groundmark on the stem shows they have been before.

Soak the roots in water before putting in the ground and, above all, tread the ground firmly around them. More plants fail through lack of moisture due to improper planting than any other cause.

Do not cultivate the ground among the plants, but keep it mulched with leaves or **well rotted** manure, which will absorb moisture like a sponge.

Partial shade is beneficial, but under trees where the ground is kept poor and dry is not a good position.

Rhododendrons should be planted fairly close together. One-and-a-half times the height of the plant out of the ground is a good general rule. Thus plants 2 to 2½ feet high should be set about 3 feet apart.

RHODODENDRON

Rhododendron hybridum. The hardiest and showiest varieties as follows:

Album elgans. White, tinged with pink in bud. Strong vigorous grower.

Album grandiflorum. Very fine white, with delicate lavender tint.

Astrosanguineum, Dark scarlet.

Boule de Neige. White. Neat, compact grower.

Caractacus. Rich crimson. Large, handsome truss.

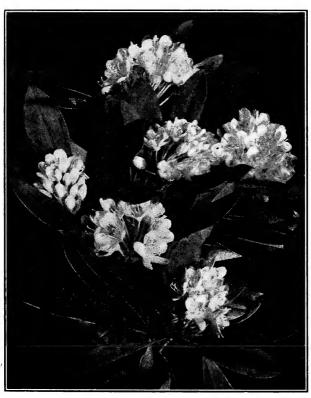

Charles Bagley. Purple red.

Delicatissima. A very delicate tint of light pink. Everestianum. Rosy lilac. Very free flowering and fine foliage.

John Walter. Rich crimson of beautiful form. Lady Clermont. Clear rose with dark markings. Michael Waterer. Brightest scarlet crimson. Roseum elegans. Good clear rose.

Prices of Rhododendrons

4 and 5 year roots.....\$.50 \$ 2.00 \$ 16.50

See Collection No. 15, page 9, for an assortment of Evergreen Shrubs suitable for planting in front of a high porch or house foundation.

Roses

(See Deciduous Shrubs for Wild and Shrub Roses)

All our roses are on their own roots, two or more years old, and pot grown. The very best stock it is possible to get to give quick and lasting results.

New roses are constantly produced, but with flexible conservatism we avoid taxing the imagination and faith of our patrons. Our list may be taken as containing the uneclipsed varieties of the past, together with some of the better new ones that have been found entirely worthy.

In growing roses and some other plants, we usually have them in pots to facilitate transplanting without checking the advancing growth. By this means superior results are obtained. The uncertainties of dormant field-grown and counter-stock are entirely eliminated. Some varieties, particularly the Bush roses, are not usually set out until about May 1, and are not shipped with other orders.

HYBRID PERPETUAL OR JUNE ROSES

Here is the cream of the best known June or hybrid perpetual roses.

Barbarossa. Pure carmine red; very free bloomer and deliciously fragrant. Superior to American Beauty for outdoor planting.

Frau Karl Druschki. The finest white rose in existence.

Francois Levet. Bright, rosy crimson; very fragrant and exceedingly beautiful.

General Jack. Crimson scarlet. One of the old well-known roses that does not lose its popularity.

Magna Charta. Bright rose, very large, full double and fragrant.

Prince Camille de Rohan. Velvety crimson maroon. The best of the hardy dark roses.

Ulrich Brunner. Cherry red, very large and fine. \$0.50 each, \$5.00 per 10, \$50.00 per 100

HYBRID TEA OR MONTHLY ROSES

These are most popular, flowering from June until frost, but require a little more care than the H. P. roses.

These are the popular roses—those which flower from June until frost. An abundance of bloom will come from these big plants of ours.

Clothilde Soupert. Ivory white shading to the center with silvery pink. Profuse bloomer.

Etoile de France. Intense crimson, pointed buds, very fragrant.

Gruss an Teplitz. Fiery red, very free blooming.

Hermosa. Clear pink, fragrant and constant blooming.

Killarney. Rich imperial pink, beautiful in form. A general favorite.

Kaiserin Augusta Victoria. Cream white, a vigorous grower and good bloomer.

La France. Silvery pink, free blooming and very sweet-scented.

Lady Hillingdon. Apricot-yellow shading to orange. deliciously fragrant.

Wm. R. Smith. Cream with flesh tints, buff yellow at the base with a center of pink. Delightful fragrance.

\$0.50 each, \$5.00 per 10, \$50.00 per 100

Beautiful Garden Roses.

BABY RAMBLERS

They don't ramble at all, but are miniature bush varieties with flowers like the real ramblers. Splendid for borders, being in flower almost all summer long.

Baby Dorothy. Lovely pink.

Baby Rambler. Crimson. Always in bloom.

Jessie. Scarlet.

White Baby Rambler. Yellow Baby Rambler.

\$0.50 each, \$5.00 per 10, \$50.00 per 100

THE PRACTICAL BOOK OUTDOOR ROSE GROWING FOR THE HOME GARDEN

By GEORGE C. THOMAS, Jr

Elaborately illustrated with 96 perfect reproductions in full color of all varieties of roses, and a few halftone plates. Octavo, handsome cloth binding, in a slip case. \$4.00 net. Postage extra.

Sweet flower and glossy leaves of Climbing Rose Alberic Barbier.

CLIMBING ROSES

This is a superior collection of the hardier kinds.

Alberic Barbier. Beautiful double white. Glossy foliage.

American Pillar. Glorious single rosy pink.

Baltimore Belle. Old-fashioned flower. Double. Vigorous. Blush.

Crimson Rambler. Crimson clusters.

Dorothy Perkins. Clear shell pink. Popular. Double.

Edgar Andreu. New. Better qualities than Crimson Rambler. Flowers twice as large, dark red. Foliage neat and without mildew.

Evergreen Gem. Double white, yellow shade. Beautiful foliage and growth.

Excelsa. The red Dorothy Perkins.

Flower of Fairfield. Everblooming Crimson Rambler.

Jersey Beauty. Single white or cream-yellow in bud.

Lady Gay. Cherry red changing to pink. Double like Dorothy Perkins.

Paul's Carmine Pillar. Single. A wonderful color.

Pink Roamer. Single pink.

Prairie Queen. Clear bright pink. Double. An old-fashioned variety. Hardy and vigorous.

Rene Andre. Red, Lighter centre.

Silver Moon. Large single white. Heavy foliage. A glorious new rose.

\$0.75 each.

Universal Favorite. Double pink.

White Dorothy Perkins. Double.

White Rambler. Double clusters.

Yellow Rambler. Large double, pale yellow. Good foliage.

\$0.50 each, \$3.50 per 10, \$25.00 per 100 Except where specially priced.

Vigor of our pot-grown vines.

Hardy Vines and Climbers

Rapid-growing Vines. For very quick growth see Dolichos, Actinidia, Lo-nicera, Akebia, and Virginia Creeper. Akebia does not mind shade. See roses also for rapid climbers.

Best clinging vines. For clinging to walls and surfaces. See Ampelop. sis Veitchii, Euonymus, Bignonia, Decumaria and Hedera. The latter likes shade.

Potted plants. For years we have been growing most of our vines in pots. This does not concern their hardiness. The plants are for plantout in the open ing ground. Successful transplanting and rapid growth without check are practically assured. Some of these are not ready for delivery until about May 1st, when shipments are made separate from other orders.

ACTINIDIA

Actinidia arguta. Running. The long stems are well clothed with fairly large, neat, dark green leaves. Distinctive and choice. Each Per 10 3 to 4 ft..... \$.50 Ampelopsis-IVY CREEPER Ampelopsis Veitchii. Japanese or Clinging. Beautiful autumn color. Ivy. or Boston

Hedges

Hedges to be a success must be intelligently planted and properly cared for. Don't try to transplant a full grown hedge; you will never be pleased with the results. The essentials for a hedge that you will be proud of are: Select the kind that suits the position and purpose. If you don't know, ask us.

Start with vigorous young plants of even grade. Dig a good trench and fertilize it with well rotted manure.

Set the plants evenly, treading the soil firmly

around them.

After they are planted cut down to one level. In the case of deciduous plants such as Barberry and Privet two-thirds is not too much to take off, or in other words if the plants are 3 to 4 feet when set cut them all back to one level of about 1 foot. It will insure all the plants getting an even start and the hedge being thick and bushy at the bottom.

The figures in parenthesis denote the distance apart at which they may be set in the hedge row.

Measure from center to center.

Berberis Thunbergii. Japanese Barberry.

Makes a beautiful dwarf hedge, pretty habit and foliage, with bright red berries to give a winter effect. Especially suitable for dry positions.

Per 100

Hibiscus Syriacus. Rose of Sharon or Althaea.

A very popular flowering hedge. We have quite a large stock in different varieties. Tell us your preference in color and we will recommend the best variety.

2 to 3 feet (18 inches) \$13.00

A lovely Althaea Hedge.

Ligustrum Regelianum. Regel's Privet.
An extremely handsome privet with beautiful drooping habit. It makes a very broad hedge and should be pruned rather than sheared to
keep it even and symmetrical.
Our stock is all raised from cutting, so is true to the best type.
Per 100
12 to 18 inches (12 inches)
Ligustrum Ibota. Ibota Privet.
The hardiest Privet will stand where the com- mon California Privet gets winter killed.
Per 100 18 to 24 inches (12 inches) \$12.00
18 to 24 inches (12 inches)
3 to 4 feet (15 inches)
Ligustrum Ibota compacta. This beautiful new form of privet has to be seen to be appreciated. Small bright foliage and very compact habit of growth.
Per 100
2 to 3 feet (12 inches) \$25.00
Ligustrum ovalifolium. California Privet.

QUINCE

Orange. Large, yellow, fine. October. Stocky trees, 50 cents each; \$4 per 10.

ASPARAGUS

Conover's Colossal, and Barr's Mammoth. \$1.25 per 100.

Small Fruit

BLACKBERRY

Enormously productive. Good, large, firm Erie. berries.

Kittatinny. Ripens early and fruits for some time. Very popular sort. Good strong canes, 50 cents per 10.

CURRANT

Black Naples. A good, dependable black. Cherry. Red. A remarkably heavy bearer. Good berry

Fay's Prolific. This red has been known for years as a dependable variety.

President Wilder. Very large, light red, flavor de-

licious, mildly acid.

Versailles. Red. Very good and a heavy bearer.

White Grape. Unusual and the best white.

Make your own Currant jelly.

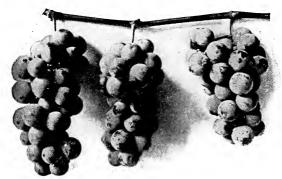

GOOSEBERRY

olumbus. Very large and quite sweet. proaches the old English varieties in size. Columbus. per 10.

Downing. A very fine green gooseberry, and bears \$1.50 per 10. heavily.

Industry. A dark red variety, rich and agreeable in flavor. \$2 per 10.
Red Jacket. Considered to be almost equal in size

to famous English Gooseberries. Very fine. per 10.

Delicious Caco Grapes.

GRAPE Black

A new variety, having all the good qualities of the Catawba and Concord. 50 cents each.

Campbell's Early. One of the largest fruiting grapes and extremely satisfactory. 35 cents each.

Concord. The well-known black grape. Can al-

ways be depended on to fruit heavily.

Moore's Early. A little earlier than Concord and fruit a little larger.

Worden. Bunch large and compact. Good large berries and an early fruiting variety.

Red and Purple

A very nice berry, having an unusually Catawba. sweet and aromatic flesh.

Delaware. The well-known small, very sweet red Comes in small bunches.
Berries larger than Catawba, flesh tender, grape.

Salem. juicy and sweet.

White

Green Mountain. A particularly fine white grape and not well known as yet. 35 cents each; \$2.80 per 10.

iagara. This well-known white grape needs no description. It should be in every collection. Niagara. Strong roots (except where specially priced), 25 cents each; \$2 per 10.

JAPANESE RASPBERRY WINEBERRY. (Rubus phoenicolasius.)

An extremely ornamental plant which bears deli-The raspberry-like berries are of cious fruits. medium size, the color of sherry wine, with a brisk, pleasant sub-acid flavor. Yields enormously strong plants, 4 to 5 ft., \$0.50 each; \$3.00 per 10; \$25.00 per 100.

RASPBERRY

Columbian. Excellent flavor, of large size. A good dark-red variety.

Cuthbert. Hardy, sweet and productive. Deep crimson.

Golden Queen. Large, firm berry, amber color, and

of good quality.

Gregg. A well-known black-cap. Fruit large and good. 50 cents per 10; \$3.50 per 100.

St. Regis. A new everbearing kind of exceptionally

good quality. 25 cents each; \$1.00 for 10; \$2.00

RHUBARB

Strong roots of fine quality, \$1.50 per 10.

For the Lawn

Meehans' Peerless Mixture is a rare combination of many varieties of the highest value and quality. These are mixed in the proper proportions, the private formula being the result of our own experience of many years. The demands upon the Landscape Department made the pressing need of such a mixture very apparent. This department has used hundred. dreds of bushels on its many operations, with marked success.

The bushel is a liberal one—20 pounds—and the price is reasonable. Spread from three to five bushels to an acre. Scratch bare places in the lawn with a sharp-toothed rake, scatter the seed plentifully, then roll it.

feet; 1 acre requires 4 to 5 bushels.	

MEEHANS' SHADY LAWN GRASS SEED

Some grasses flourish as well in shade or partial shade as the Kentucky Blue does in the sun.

Meehans' Shady Lawn Grass Seed is just such a mixture. It is a combination of grass seeds known to do well in the shady spot, so often the one trying condition connected with the beautification of the lawn.

feet: 1 acre requires 4 to 5 bushels.	

MEEHANS' CANADIAN WOOD ASHES

To sweeten a sour lawn or improve a heavy soil, use wood ashes.

These may be applied on the same ground on which bone meal has been used, but let it follow three or four weeks later.

We can quote very low rates on carload lots. Quantity required: One pound for each 10 square feet; 1½ to 2 tons to the acre.

MEEHANS' UNADULTERATED BONE MEAL

Though not the pleasantest article to handle, bone meal certainly contains the real plant food. It gets to work quickly if spread early, and you can see results. You may pay more but you can't get better than the high grade we offer.

get better than the high grade we one.

Quantity required: One pound for each 10 square feet; 1½ to 2 tons to the acre.

Hardy Herbaceous **Perennials**

Unless the purchaser is familiar with this group of plants, he has to depend very largely upon the nurseryman to properly interpret his needs.

We are specialists, grow the best kinds, and grow them right. What is more important, we place our large experience at the service of our customers.

Our stock is in the highest state of perfection and is handled in such a manner as to get to the customer in prime condition.

Results are what are needed, and our whole aim is to do all in our power to insure getting them for our customers. Wherever the position and whatever the condition there are plants to suit, and ones that will thrive.

Tell us of your needs, and our knowledge and experience will be at your service.

All the plants in this immense collection except where separately quoted are sold at one and the same price.

Make your own selection at 15 cents each. (Postpaid, 20 cents each); 10 plants of one kind, \$1.20; 100 plants of one kind, \$10.00.

Five plants of one kind sold at the 10 rate; 25 at the 100 rate.

Achillea-YARROW

Achillea Eupatorium. Fern-leaved Yarrow. 2 to 3 ft. Yellow. Blooms in July and August.

A. Millefolium roseum. Rose Yarrow. 1 to 1½

ft. Rosy crimson. Blooms June to September.

OF THE GARDEN THE VOICE MY GARDEN OF DREAMS

By ABRAM LINWOOD URBAN

There can be no rich garden spirit without the sentiment and philosophy such as these books arouse.

Price, \$1.30 each, postpaid.

Meehans' Latest Introductions

GLOBE-HEADED MULBERRY

Entirely new, and now introduced for the first time.

Similar in outline to Catalpa Bungei, but leaves smaller and neater. As hardy as Tea's Weeping Mulberry.

2-year heads, stems 5 to 6 ft., \$2 each.

NEW CLIMBING ROSE—Edgar Andreu

Better qualities than Crimson Rambler. Flowers twice as large, dark red. Foliage neat and without mildew.

2-year, pot-grown, 50c each.

FOR SHADED BORDERS—Senecio clivorum

One of the famous Wilson discoveries in China. Luxuriant growth. Panicles of pretty, golden yellow flowers. A hardy, herbaceous perennial.

25c each; \$2 per 10; \$15 per 100.

FOR DRY, SUNNY PLACES—Phlox argillacea

Flowers mid-season, silvery-lavender, distinctive, narrow leaves.

Exclusive control of this new plant.

35c each; \$2.50 per 10; 25 for \$3.75.

See pages 5 to 7 for other new and rare plants

HAVE YOU Meehans' Mallow Marvels IN YOUR GARDEN?

A new plant produced by us several years ago, it has proved the most popular hardy flower in cultivation. Thousands sold

every year.

Others have copied our Marvels, but with the usual result.

We continue to improve the quality and selection, and our plants are the best.

plants are the best.

Huge, gorgeous flowers in August and September.
In one season the plants develop into bushes 5 to 8 ft. high.
Order now.
